

Request for Council Action

Originator Information Systems	Item Addendum for professional services to implement Office 2013.
Agenda Section Consent	Date 4/4/2016

Description

LANDesk is used by the Information Systems (IS) division to manage the City's desktop computing environment. An addendum to a previous agreement with LANDesk will provide for professional services to assist with deploying Microsoft Office 2013 to more than 650 desktops.

In November 2015, Council approved the purchase of LANDesk Service Desk software. The amount of the agreement was \$52,379.31. Council approval was required, because the 2015 \$100,000 limit for the state contract used to purchase LANDesk had been exceeded. As such, Council approval is required for the addendum. The cost of the addendum is \$5,386.48.

Requested Action

Council is requested to approve the addendum to the LANDesk Service Desk agreement in the amount of \$5,386.48.
